Sneak Preview of your Cruise Route on DVD

Enclosed you will find a leaflet from Waterway Routes with details of the DVD's that they make and sell of cruises around our beautiful inland waterways. You can order these from us and get a little taste of your cruise before you arrive, so you know what to look out for on your holiday (and maybe start planning your next one!). Some of our cruises will combine waterways on several DVD's, so you might need more than one if you want to see your whole cruise route. If you would like advice on which of the Waterway Routes DVD(s) show your cruise(s), just give us a call on **07921 214 414** or have a look at our website www.canalvoyagers.com

The DVD's are fun and informative and all of them come with a fold-out map and an information booklet on the canals.

If you would like to order a DVD of the waterway you are going to cruise, fill out the information below:

DVD Title(s)

Popular/Bow-cam/Combined (delete as appropriate) Cruise Number.....
